

The Federal Communications Commission

Dear The Federal Communications Commission,

dear fcc member,

i just have become comfortable with my phone bills and now i hear that the fcc is trying to change the rules. i use a phone card for all my long distance calling and a tracphone for my cellular needs. it is not the cost of the phone service that bothers me as much as it is all the fees and surcharges and now this "flat fee"

why the change?????

whio will benefit????

how much more will you charge me for my safety away from home?????

how much more will you charge me to talk to my family in virginia and georgia???

sincerely,

barbara l hauver 18 ridings dr homer, ny 13077
